**93% OF ORGANIZATIONS ARE
CONCERNED ABOUT INSIDER RISKS**

Uncover hidden insider risks in your environments

Monitor user behavior and communications for risky behavior

Assess your environment against the Data Protection Baseline

Receive an analysis and report on findings and associated risks

Learn about tools and services that can mitigate risks

Explore recommendations and next steps

For the majority of organizations, external cybersecurity risks have been top of mind for many years. But these organizations are now considering the risks posed by trusted insiders as an equal or even bigger threat. Organizations are beginning to recognize the importance of establishing controls that enable them to quickly identify and manage insider risks.

INTELLIGENTLY INVESTIGATE AND TAKE ACTION ON INSIDER RISKS

Detect, investigate, and act on malicious and inadvertent activities in your organization is critical to ensuring trust, creating a safe workplace and protecting company assets.

The Manage and Investigate Risk Workshop gives you the insights you need to understand insider risk in your organization.

As your business-critical data expands and your workforce shifts to remote work, having an integrated approach that can help quickly identify, triage, and act on risky insider user activity is more important than ever.

By attending this workshop, our experts will work with you to:

Document your objectives and strategy around insider risks

Show how to detect investigate and take action on Insider risks.

Demonstrate ways to accelerate your compliance journey with the latest Microsoft technologies

Provide actionable next steps based on your needs and objectives

Pre-engagement meeting

User Risk Check

Data Protection Baseline Assessment

Microsoft Compliance Overview

Recommendations and Next Steps

Manage and Investigate Risk Workshop

Intelligently identify insider risks

User Risk Check uncovers risks that might be harmful to your organization

The User Risk Check is the core activity of the Manage and Investigate Risk Workshop. The activity is spread out over several weeks to allow time to run on top of your cloud infrastructure and discover and identify insider risks in your organization. User Risk Check leverages automated Microsoft 365 tools and services to monitor user behavior and communication to discover inadvertent or malicious behavior that can impose risk to your organization.

The automated discovery process will monitor user behavior and communication for:

- Data leaks, accidental oversharing or malicious intent
- Data Theft by departing employees
- Inappropriate communication and offensive language
- Sensitive information
- Conflict of interest

What to expect

By the end of this workshop, experts in Microsoft compliance will provide you with a:

- User Risk Check report that includes findings and insights from the automated discovery process
- A list of recommendations and actionable next steps that will help mitigate the identified risks
- Clear look into Microsoft's approach to mitigating and controlling insider and regulatory risks.
- Data Protection Baseline assessment report with suggestions and top key improvement actions.
- Set of long-term recommendations on your compliance strategy, with key initiatives and tactical next steps

Why ADVANCED IT?

When it comes to security and secure cloud solutions for your company, you need an experienced partner with referenced success stories.

Advanced IT is a leading provider of technology solutions and services with more than 10 years of experience in information security technology and services. Our offering ranges from licensing to consulting services for our customers, looking always for a good architecture, implementation, configuration and delivery of cloud and OnPrem solutions. We have the experience to support our clients throughout their technological roadmap in today's digital world and to be able to support them in digital transformation.
